

AYOUB BOUDAUD

Software Engineer

I am a highly skilled .NET Software Engineer with over three years of experience in developing robust and scalable applications. I possess a strong foundation in software engineering principles and a passion for delivering high-quality, efficient solutions. I am adept at analyzing complex business requirements, designing and implementing innovative solutions, and ensuring the successful delivery of projects within deadlines. I am eager to embrace new technologies, and thrive in challenging and collaborative environments.

PROFESSIONAL EXPERIENCE

Terabyte Software, Kenitra - Morocco

December 2021 - Present

December 2023 - Present: Team Leader

- Leading the development of backend services, ensuring high-quality code and performance.
- Managing project timelines, app features, and task assignments to optimize team productivity.
- Conducting meetings to align team efforts and address project challenges.
- Providing innovative solutions and technical guidance to team members.
- Collaborating with clients to gather requirements and ensure satisfaction with project deliverables.
- Overseeing the implementation of best practices for code quality and project management.
- Facilitating communication within the team to foster a collaborative work environment.

December 2021 - Present: Backend Software Developer

- Develop and enhance Microservices/APIs using .NET 6–8.
- Write clean, testable, and maintainable code; perform unit and integration testing.
- Optimize and refactor code with advanced architectures and Azure DevOps workflows.
- Conduct design and code reviews; ensure quality using SonarCloud.
- Implement Infrastructure as Code (IaC) and maintain CI/CD pipelines.
- Monitor and optimize Azure cloud services; resolve critical issues and bugs.
- Manage project tasks and documentation via Azure DevOps boards.
- Ensure SaaS reliability and address security vulnerabilities.
- Oversee SQL databases in staging/production environments.
- Drive continuous improvement and adopt innovative solutions.

Régie Autonome Kenitra – Morocco (RAK)

April 2019 – September 2019

Joining as a junior software developer - Paid internship, to:

- Development and design of applications using various programming languages such as PHP, JAVA, and C# from scratch.
- Assisting other colleagues in their tasks, such as monitoring servers and troubleshooting issues in 'RAK' applications.
- Redesigning the organization's website structure using tools such as Adobe XD and Photoshop.
- Fixing computer issues like LAN ports by installing security software and virus protection.

Commune Kenitra – Morocco

December 2018 – March 2019

Joining PHP Developer - Training internship, to:

- Study and analyze issues encountered in the archiving domain to construct a specification document.
- Design and development of an application aimed at solving the problem faced by the organization in the archives sector, using multiple protocols, and designed with a database that adheres to security standards and procedures.

EDUCATION AND DEGREES

🌐 ayoub-boudaoud-a08703180

✉ ayoubboudaoud136@gmail.com

🏠 Rue 153 NR 321 Afca Kenitra

SKILLS:

Technologies: .NET (6, 7, 8), Entity Framework (EF)

Languages: C#, JavaScript

Frameworks: ASP.NET, ASP.NET MVC, ASP.NET Core, Blazor (Web & WebAssembly), ReactJs, AngularJs, TillwindCss

Databases: SQL Server, MySQL, Redis, Firebase

Architectures: Microservices, APIs, Clean Architecture (DDD & Onion Architecture)

Tools & Practices: CI/CD, Git, Docker, API Gateways, SonarQube, Azure services

Software Development Principles: YAGNI, SOLID, KISS

Methodologies: Agile (Scrum), Devops

Testing: TDD, Unit Testing, Integration Testing, Functional Testing

Project Management: Project Analysis and Design, Reporting

LANGUAGES:

- English : Professional Skills
- French : Moyeen

HOBBIES:

- GYM
- Reading
- Smart Games
- Football

<u>Master Degree:</u> Data Science and Engineering Mohammed V University of Rabat – Faculty of Sciences Rabat (FSR)	2024 – 2026
<u>Professional License Degree:</u> INFORMATION SYSTEMS AND BIG DATA Higher School of Technology of Salé	2022 – 2023
<u>Fundamental License Degree:</u> LINGUISTIC STUDIES STREAM <u>Academic Degree:</u> ETUDES ANGLAISES Ibn Tofail University – Faculty of Languages – Letters and Arts of Kenitra	2018 – 2021
<u>Diploma:</u> Specialized Technician: Software Development <u>Microsoft Certificate:</u> HTML5 – JAVASCRIPT – CSS ISTA: Specialized Institute of Applied Technology in Industry – Maamora, Kénitra	2016– 2018
<u>Baccalaureate:</u> LIFE AND EARTH SCIENCES High school: IDRIS First of Kenitra	2015 – 2016
